In a delpoing about, A bottle of hot water Is then placed at your feet :

Lying at your case: You 'ee in such a happy mood Anything will piease.

Puts you in a slumber, Gives you dreams of bliss, Naught in any "Treatment" Is so nice as this.

When it all works nicety, You have a charming time. If you have not tried one, Reader, do—it's prime.

If you're feeling pervous— Tired—and can not rest, You'll surely fall to like them. Though you try your best,

But you're very lucky
If the drops don't steer
In another channel
And trickle in your ear. If you should make the effort To get into a dose, first you know, a saucy fly Has lighted on your nose-

You twitch the muscles right and left, Work them up and down, Blow—and try a broad grin— Then you try a frown.

CAPT. ROBERT BROWN'S

WHALING GUN, PATENT BOMB LANCES

AND GUN HARPOONS.

A FTER SEVERAL YEARS LABOR AND experimenting upon whales, on the whaling ground, with his apparatus, combined with the advantages of being a practical whaleman, the Patentee has been enabled to obtain an instrument in form of a Bomb Lance, which for utility and effective-

ness cannot be excelled.

The attention of Agents and Officers of whale-ships is called to the following testimonials.

San Francisco, January 10, 1856.

Capt. R. Brown—Sir. I take this opportunity to inform you that we used those Bomb Lances we bought of you, and found them to be of great negetit in capturing whales amongst

the for.

The first whal- that we used the Bomb Lance on was killed in the following manner.—The boat went alongside of the whale and the boat-steerer fired a Bomb into him and then fastened to him with a gig iron: the Bomb was heard to explode, and the whale did not blow after the Bomb exploded. The above-mentioused whale was in the ice, and it is our opinion that we should not have got that whale and many others that we did get, if it had not been for your Bomb Lances, and we fully recommend them to the attention of those fitting out whale ships.

Respectfully yours,

THOMAS WALL, Master bark George.

HONOLULE, March 17, 1856.

CAPT. ROBERT BROWN—My dear Sir: I used your Bomb
Lances in taking a whale, north, the past season, which made
250 bbls. of oil. We never could have taken him without said Lances, as our boats could not get near enough to use the com

mon hand lance.
Yours Respectfully,
G. L. Cox, Master whale-ship Magnolia.

alongside, and deliver the same alongside of vessels at Aspinwall. Vessels of from 200 to 200 tons um lie at the Pier with safety, grounding in the mud at low water.

The vessels to and from Aspinwall are fast-salling brigs, be longing to the Rail-Eond Company, and the Company is prepared to receive oil at Panama and deliver it in Mew York, ander therough Hills of Ladling at the rate of seven cents per gallon, if received at the Pier, and eight cents per gallon if received at the Pier, and eight cents per gallon if received in the harbor from ship's tackles, charging for the capacity of the casks, without allowing for wantage. For whalebone, one and one-half cents per pound. This charge covers every expense from Panama to New York, in case the oil is sent through the Superintendent or Commercial Agent of the Panama Rail-Road Company, insurance excepted. The freights may be made payable on the Isthmus or in New York at the option of the shipper.

The vessels of the Company sail regularly semi-monthly, and the average passages to and from Aspinwall are about twenty to twenty-five days. The time occupied in crossing the Ishmus is four hours. Oil, during its transit across the Isthmus, will be covered with canvax, or conveyed in covered cars, and owners may be assured that every care will be taken to prevent leakage. Several cargoes have already been conveyed to New York with out the slightest loss.

Oil or other goods consigned for transportation to the Super-intendent of the Panama Rail-Road Company, or to W 1811a me Nelson, Commercial Agent of the Company at Panama, will be received and forwarded with the greatest despatch.
